📍: La Habana, Cuba

Profile

I am a highly motivated and enthusiastic software developer with 5 years of experience in the field. I possess foundational to intermediate skills across diverse areas of computing. My experience includes web development, machine learning, and cross-platform application development. Eager to contribute my skills and continue learning and improving.

Experience

.NET Developer

Premium Tech SURL

2023

Havana, Cuba

- Automated the video editing process for the TV cubana's Telecartelera.
- Implemented a video editing application using the ffmpeg framework.
- Developed 60% of the application.

Education

Bachelor of Computer Science

University of Havana

2020 - 2025

Havana, Cuba

Programming Languages

C#, Python, C/C++, JavaScript

Technologies

Windows, Linux, Android, iOS, VPN, Google Collab, ASP.NET Core, React JS, Typescript, HTML, CSS, Bootstrap, Git, GitHub, MySQL, SQL Server, npm, pandas, numpy, matplotlib, sklearn, scipy, Shell, ORM

Languages

- Spanish: Native
- English: Intermediate

Achievements

ICPC

- Participated in The 2023 ICPC Caribbean Finals, where my team was ranked 23rd out of more than 60 teams.
- Ranked above the average of Latin American teams.

Cine+

- As part of a university project, participated as a frontend developer in a web application designed to provide movie ticket sales services.

Telecartelera

- Being part of the development of a professional project provided me with experience in the labor world and good practices for future jobs.

Strengths

Algorithms

- A enthusiast of competitive programming, so I am active in the use of classic algorithms: dynamic programming, binary search, graph flows, greedy, KMP, Matching.

Data structures

- Knowledge and use of elemental data structures such as: graphs, trees, linked lists, dictionaries, arrays, queues and stacks, as well as more advanced structures such as Segment Tree, AVL, Trie and Disjoint Set.
